

ASSITEJ INTERNATIONAL ARCHIVES | New Arrivals

Between October and Christmas Eve 2017 the Children and Youth Theatre Centre in Frankfurt (Main) has carried out a project to check and update the holdings of the ASSITEJ International Archives. This step has been induced by a new delivery from ASSITEJ South Africa containing in particular a selection of videos collected in preparation of the 19th World Congress 2017 in Cape Town.

TYA Worldwide

For choosing guest performances trailer or live recordings of performances were sent in from all continents. Although the Centre didn't receive the complete sample of the deliveries we were told to get hold of a representative selection of media. A look on the listing of the videos shows the continuous predominance of the European Theatres, but also provides evidence of the vital theatre-life of the other continents:

3 Theatres from Australia

11 Theatres from three North-American Countries

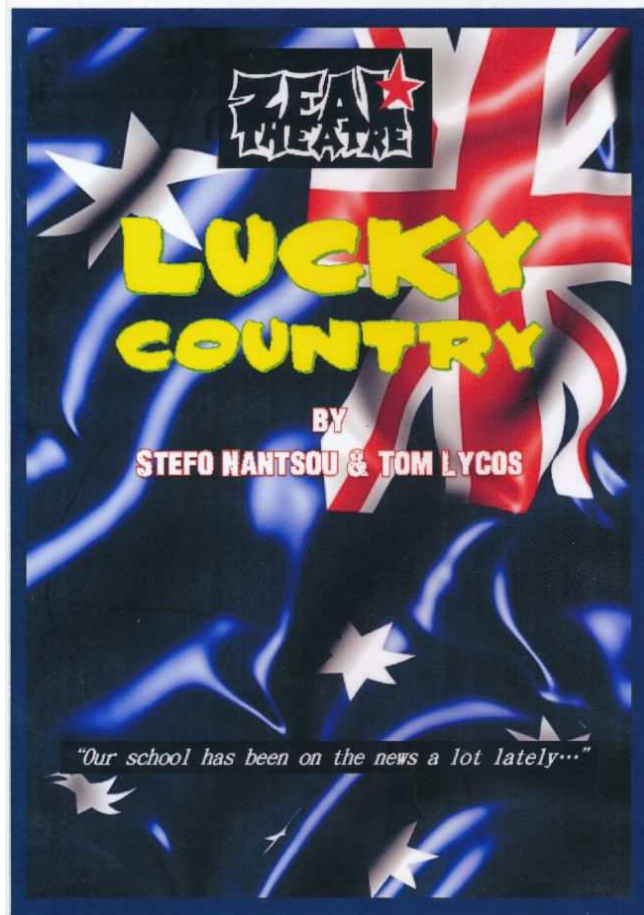

12 Theatres from four South-American Countries

12 Theatres from twelve Asian Countries

24 Theatres from two African Countries, South Africa and Kenya

48 Theatres from seventeen European Countries

Together with the description of the new arrivals the complete stock as well as the entries in the catalogue were checked. Especially the former delivery containing the period of the Secretary General from 1998 until 2008 in Sweden was repacked and catalogued.

Focus on Africa

During this process the documents were searched for information worth to copy or scan for counseling or displaying on the web. In fact we prepared with those documents and another selection of illustrations taken from the archiv of contemporary international performances a new section on the internet portal of the Centre www.jugendtheater.net with a [Focus on Africa](#).
